

## **Instructions for SDG's based assignment**

### **1. Introduction**

- Briefly introduce the SDG you have selected.
- Provide some background on why this SDG is important and its relevance to global or national development.

### **2. International Case Study**

- Present a global example (a country or region) that has addressed this SDG.
- Describe the efforts made, strategies implemented, and outcomes or challenges faced.
- Highlight any lessons learned or best practices from this case.

### **3. National Case Study**

- Focus on a national example and its efforts to achieve the chosen SDG.
- Discuss policies, initiatives, or programs implemented at the national level.
- Include successes, challenges, and areas for improvement.

### **4. Conclusion**

- Summarize the key takeaways from both case studies.
- Discuss potential solutions or areas for improvement in achieving the SDG.
- Suggest any actions that could be taken at the international or national levels to make progress.

### **5. References**

- List all sources used for your research (books, articles, websites, etc.).
